

Kseniia Stupina

Front-end developer

I am a front-end developer with 3+ years of experience. I like creating websites so that the finished product is exactly the same as Figma or even better. I love to pay attention to details. And if I find a bug, I will definitely do everything to fix it.

Employment history

Mish Design

Middle Front-end developer September 2023 — present

Created projects on Next.js + ts
Working with animation: gsap, PNG sequences.
Configuring the site for multilingualism.
Basic SEO setup.
Writing unit tests on Jest;
Project migration, getting rid of legacy.
Creating a component library.
Creating and maintaining a component showcase (Storybook).
Active participation in project discussions. I try to analyze all tasks before I start doing it.
I participate in compiling and distributing tasks, and I also monitor their implementation. I conduct code reviews.

PIC

Front-end developer July 2022 - September 2023

In a team with a designer and a backend developer, we created an aggregator for finding bearings.
I am fully responsible for frontend development, and implementation of new functionality. I independently described the architecture of the future site, set tasks (using Jira), and established communications between team members.
Worked on website optimization. Analyzed Lighthouse indicators. As a result, we managed to improve SEO, performance, and accessibility.
In the work, I used both ready-made components from third-party libraries, with subsequent customization, and created my own. For example, such as pagination, slider, tables, managed inputs, etc.
I used Vue 3 and its ecosystem (Vuetify, Vue Router, and Vuex) as the main framework for creating the site.

OKENIT

Front-end developer February 2022 — April 2022

Worked on creating an application for storing and organizing data for departments of one organization.
Main stack: Typescript, Vue 2.
For visualization ready-made components from third-party libraries were used, most often Vuetify and Bootstrap.
Created HTTP requests using REST methodology.
